EDUCATION

College of Engineering Guindy, Anna University

Bachelor of Technology in Information Technology; CGPA: 8.41

Chennai, Tamil Nadu

Aug. 2023 – Expected May 2027

Sri Surya Junior College

M.P.C; Percentage: 98.9%

Nagari, Andhra Pradesh

2021 – 2023

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python, JavaScript

Frontend: HTML, CSS, React.js

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: PostgreSQL, SQL

Developer Tools: Git, GitHub, VS Code

Core CS: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

PROJECTS

Research Project Financial Management System | *React, Node.js, Express, PostgreSQL* [GitHub](#)

- Built a full-stack web application to digitize financial management of university research projects, handling budgets, expenses, payments, and audit trails.
- Developed secure RESTful APIs with Node.js/Express implementing JWT authentication, role-based access control for Admin, Faculty, and Finance Officer roles, and PostgreSQL transaction management.
- Designed a normalized PostgreSQL schema with stored triggers, views, and JSONB audit logging to automatically track every financial action across the system.
- Built a responsive React frontend using React Router, Context API for auth state, and Recharts for real-time financial dashboards with budget utilization, monthly spending trends, and category breakdowns.

DocTrust AI | *FastAPI, Python, YOLOv8, EasyOCR, spaCy, Streamlit*

[GitHub](#)

- Built an automated document privacy pipeline combining YOLOv8 visual masking with spaCy/EasyOCR for PII redaction.
- Engineered FastAPI REST endpoints handling PDF-to-image processing, batch redaction, and document reconstruction.
- Built an interactive Streamlit UI to display side-by-side redacted outputs and query Gemini LLMs securely.

CodePad | *Java Swing, ProcessBuilder, Multithreading*

[GitHub](#)

- Developed a lightweight multi-language code editor supporting syntax highlighting for C, C++, Java, and Python.
- Designed a multi-tabbed Graphical User Interface in Java Swing.
- Leveraged Java ProcessBuilder to execute external compilers directly within the application interface, capturing standard output and errors.

ACHIEVEMENTS AND CERTIFICATIONS

Python for Data Science – NPTEL Certified

[Certificate](#)

- Completed government-certified course covering data manipulation and analysis using NumPy, Pandas, and Matplotlib libraries.

NSS Volunteer, UNIT 11

- Contributed to organizing social awareness campaigns.
