EDUCATION

College of Engineering Guindy, Anna University <i>Bachalore of Technology in Information Technology, CGPA:8.55</i>	Chennai, TamilNadu, India <i>Aug. 2023 – May 2027</i>
Sri Surya Junior College(Intermediate) <i>M.P.C, Percentage: 98.9%</i>	Nagari, Andhra Pradesh, India <i>Aug. 2021 – May 2023</i>
Sri Saraswathi Vignana Mandir(Secondary School Certificate) <i>Percentage: 100%</i>	Nagari, Andhra Pradesh, India <i>Aug. 2010 – May 2021</i>

PROJECTS

Notepad Application | Java (Swing, AWT, I/O)

- Built a GUI-based text editor with features like New, Open, Save, Print, Copy, Paste, Cut, and Select All
- Implemented file handling using JFileChooser for creating, reading, and saving .txt files
- Designed a clean Swing UI with menus, keyboard shortcuts, line wrapping, and scroll support
- Applied event-driven programming (ActionListener) for smooth and modular user interactions

Finance Tracker | C++, Trees, Linked Lists, Hashing, OOP

- Developed a CLI-based personal finance tracker with expense addition, search, categorization, and history
- Implemented trees for sorting, linked lists for history, and hash tables for fast lookups
- Designed a modular, object-oriented codebase ensuring scalability and structured financial data management

Minimal Text Editor in xv6 | xv6 OS, C, System Calls, OS Internals

- Designed and developed a lightweight text editor within the xv6 operating system for creating and editing files directly from the kernel
- Modified core file system calls to support in-place editing and implemented low-level file handling in C
- Gained hands-on experience with OS-level programming, memory management, and system call interfaces
- Contributed as part of an academic OS project simulating real-world kernel development and testing practices

Student Attendance Management System | PostgreSQL, SQL, DBMS, Data Integrity

- Designed and developed a database-backed system to manage student attendance records with high reliability and efficiency
- Implemented core functionalities including viewing, and updating attendance using optimized SQL queries
- Ensured data integrity through constraints, normalization, and transaction handling in PostgreSQL
- Focused on performance tuning and scalable schema design for seamless integration into academic environments

ACHIEVEMENTS AND CERTIFICATIONS

Python for Data Science – NPTEL

- Completed a government-certified course by NPTEL on Python for Data Science
- Gained hands-on experience in NumPy, Pandas, Matplotlib, and data preprocessing techniques

TECHOPS Coordinator – CEG Tech Forum

- Responsible for organizing and overseeing technical operations within CTF events and activities
- Collaborated with team members to promote innovation, engagement, and technical excellence

NSS Coordinator

- Coordinated National Service Scheme (NSS) activities including awareness and outreach programs
- Designed impactful posters and digital content for NSS events and social initiatives

TECHNICAL SKILLS

Languages: C/C++, Java, Python, SQL (Postgres), JavaScript, HTML/CSS

Frameworks: React, Node.js

Developer Tools: Git, VS Code, Eclipse

LANGUAGES KNOWN

- English • Tamil • Telugu
